Saudi Industrial Detergents Co. (SIDCO) was founded in 1982 and since then has developed and manufactured high quality liquid and powder detergents.

In 2006, the company achieved the prestigious ISO9001-2000 and as part of its continuous improvement, the company expanded the management system covering Quality, Health, Safety and Environment under the UKAS-MS and Bureau Veritas Certification. SIDCO products are sold throughout the KSA, gulf countries and more than 10 countries world wide.

Consumer Products

SIDCO produces a diverse range of household cleaning products for daily use. This includes Powder & Liquid Laundry Detergents, Handsoaps, Dishwashing Liquids, Fabric Softeners, Air Fresheners, Bleaches, Floor Disinfectants & Cleaners, Hair Shampoos, Toilet Cleaners & Deodorizers, Antisepsics and other cleaning and disinfecting chemicals. SIDCO caters the growing needs in the Saudi and GCC markets by supplying high quality and economical products. All products have been quality perfected through long research and application experience, continuous participation in the global detergent community activities and up to date technology and market trend locally and globally.

Industrial Products

SIDCO serves the needs of the industries with a wide range of products e.g. Degreasers, Floor Polishes, Car Shampoos, Fabric Softeners, Handsoaps, Automatic Dishwashing Liquids, Bleaches, etc. SIDCO carry-out tailor-made formulations to suit the needs of the customers. These items are being supplied in 20L, 25L, 30L and Intermediate Bulk Containers (IBCs).

Veterinary products

There is a special division in SIDCO that concentrates on veterinary needs. We formulate liquid disinfectant products specifically designed to meet the standard requirement for farm, poultry, livestock and in general for veterinary applications. A broad range of veterinary disinfectant products are available in the Veterinary Portfolio and depending on the intended applications, these products are based on Iodine, Phosphoric Acid, Iodophores, Phenolic Derivatives, Aldehydes and Benzalkonium Chloride.
